Warranty Procedure

To validate your warranty: Fill out the Warranty Registration Card (below), making sure to include the model and serial number of the unit since this is how warranties are tracked. If you purchased your Acesonic product in the U.S., mail the completed Warranty Card directly to Acesonic within 10 days of purchase. If you purchased the product outside the U.S., you must file your Warranty Registration Card with the distributor in that country. You are advised to keep your bill of sale as proof of purchase should any difficulties arise concerning the registration of the warranty card.

Warranty registration is made and tracked by model and serial number only, not by the purchaser's or owner's name. Therefore any warranty correspondence or inquiries must include the model and serial number of the product in question. Be sure to fill in this information in the space provided below and keep your portion of the Warranty Registration Card in a safe place for future reference.

Warranty service must be performed only by an authorized Acesonic service facility located in the country where the unit was purchased, or at Acesonic headquarters in the U.S. It is recommended that advance notice be given to the repair facility to avoid needless shipment in case the problem can be resolved over the phone.

Unauthorized servicing will void any existing factory warranty on your product.

Factory service: To have your product serviced at the factory, it must be shipped fully insured and in the original packing or equivalent. This warranty will not cover repairs on products damaged through improper packaging. If possible, avoid sending products through the mail. Be sure to include the following with your package:

- Complete return shipping address (P.O. Box return addresses are not acceptable).
- A detailed description of any problems experienced, including the make and model numbers of any other equipment in the audio system you are using.

Repaired products will be returned freight C.O.D. unless sufficient return shipping funds, plus shipping instructions, are included with the returned unit.

Products sent to the factory from outside the U.S. must include return freight funds, and the sender is fully responsible for all customs procedures, duties, tariffs and deposits.

Record the model and serial number here and retain this portion of the warranty card for your files:
