\$149 HACEPLO220

The **DGX-220** supports up to 5,000 MP3+G songs on a USB drive or SD card. Simply plug in your storage devices and the machine will load them up faster. An HDMI port is also built-in and both surround sound and microphone audio are all sent through the HDMI port to help simplify connections. Acesonic has the only players on the market to have this feature utilizing both HDMI & microphone audio together! Other players would require a mixer or 2nd connection to use HDMI & microphone audio together which can be both a hassle and expensive.

4 cesonic DGX-220 HDMI Multi-Format Player AM-200 960W Mixing Amp, Dual Channel UHF-5200 PRO Wireless Mic System & CSN-500 450W 10" 3-way Speakers

EXCLUSIVE FEATURES:

Compatible Disc Types:

Compatible with the most disc types such as: Blu-Ray Discs, BD-ROM, BD-R, BD-RE, DVD, DVD+/-R, DVD+RW, VCD, CD-DA, CD-R, CD-RW, VCDs, CD+Gs, CDs and data discs. This is the only Blu-ray Disc player that supports CD+G!

. Compatible File Formats:

Plays MP3, MP3G, WAV, WMA, MPEG-1, MPEG-2 (MPG/VOB). MPEG-4 (AVI), DivX, XviD, RMVB, DAT, ISO, M2TS, MKV, MOV & JPEG files in high-resolution video up to 1080p or 1920x1080

POWERFUL NEWLY ADDED FEATURES:

. CD+G to MP3G Converter:

Convert all CD+G discs into MP3G and store them on SD cards, external HD or USB flash drives. Simply place your CD+G into the disc tray and encode directly to your storage device.

- . Digital Recording: This totally independent feature can record your speeches or dictations without needing to have a disc playing. You can also record singing along with audio and lyrics essentially creating an MP3G with you leading the vocals! Playback recordings with a push a button and easily see if your timing is in sync with the words on screen. Great for practice. Great for sharing.
- . Back Up CD to USB Drive CD+G to MP3G: Capture a CD+G disc to MP3 or MP3+G at 1x or the faster 4x speed and save you over 75% of capturing time.(also known as "Ripping" refers to copying the contents of a CD/VCD/DVD to the hard drive of your system.)
- . Song List Creator for Jukebox Function: The DGX-220 will scan the entire drive and create a text file containing song information and a song number. You'll just need to punch in the song number to play a song and you can print out the song list through you PC.
- . Supports Larger Hard Drives: Access drives larger than 2TB that are formatted in NTFS. With hard drive enclosures housing multiple hard drives, it's easy to go past 2TB. Now you can have all your media centralize at one location. Load up your files, hook it up and go through all your images, videos and music easily.
- . HDMI Port: Allows 1 connection from player to your TV for both audio and video, including microphone audio. You can turn any HDMI Monitor into a karaoke screen. Sending audio signal digitally, you are getting the best sound quality without any interference

The ADJ COB Cannon Wash uses advanced RGBA COB (Chip On Board) technology allowing for a powerful LED engine to be placed in a small amount of space. The result is a high output, smooth color mixing LED Par with no RGBA shadows. Designed for mobile or permanent wash lighting of stages, clubs, dance floors and churches. The COB LED engine on the COB Cannon Wash is a QUAD RGBA 4-In-1). It also doubles as an uplight with its dual yoke that act as legs to set the fixture upright to wash walls and ceilings.

The COB Cannon Wash has massive 80-degree beam angle. Easily replaceable 40-degree and 50-degree lens are included so that the beam angle may be changed.

It has 7 DMX Channel modes for programming flexibility, built-in color macros and 5 selectable Dim Curves. The fixture has many pro features such as: 0-100% electronic dimming, strobe/pulse effect, Flicker Free operation, DMX and IEC power daisy-chaining, and a 4-button DMX display COB Cannon Wash may run in its stand-alone mode from built-in programs, sound actively or from a DMX controller. why choose BMB speakers

- Double layer wood housing to best handle powerful sound output
- Speaker cabinets are built with interlocking panels for extra strength when mounting.
- Durable mounting options utilizing a special fastener provide safety to the speakers and users.
- Strongly built speaker frame to join speaker cone and magnet together.
- Large and strong magnet behind the speaker cone contribute to the high quality sound output.
- High power, long diameter voice coil built with thick gauge wire.

Custom Designed Transducer

The high power output woofers deliver well-defined, powerful bass with minimal distortion, while the 1.4" precision compression driver* produces accurate mid-range and high frequencies. *DBR10 features a 1" compression driver.

A Rugged, Highly Portable Cabinet

Speakers feature a compact, lightweight, and durable plastic cabinet which offers the highest level of portability of all Yamaha powered speakers. The sleek steel grille bolsters cabinet durability and protects the internal components while a newly designed ergonomic handles provide effortless transportation and system setup,

Smart Enclosure Design for Floor Monitoring

Speakers also feature an optimized 50° wedge angle for floor monitoring. In addition the DBR12 and DBR15s symmetrical shape allows for effortless configuration of a mirror-mode floor monitoring system in either symmetrical or stereo sound field setups.

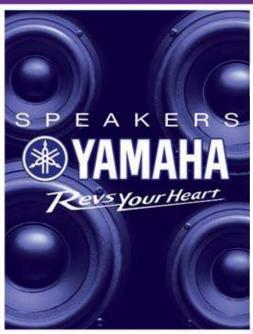

Easy-to-use Onboard 2-Channel Mixer

This speaker series have two input channels, CH1 has a combo jack which accepts both XLR and TRS Phone allowing for either Mic or Line level input signals. CH2 offers two input options; a combo jack that accepts XLR or TRS Phone, and an RCA pin jack for input from CD players or other stereo line-level sources. The onboard mixer allows you to select either CH1+2 MIX to mix the signal of CH1 and CH2, or CH1 THRU to pass the signal from CH1 only.

Rigging Points for Installation Applications

Loudspeakers come equipped with M8 rigging threads, allowing for rigged applications with optional speaker brackets or standardized eye-bolts. *Speaker brackets and eye-bolts are not included.

- . Features For Superior Sound and Convenience Great Yamaha Sound Delivers the sound & performance that the pros demand. The EMX-series powered mixers are no exception. They're built at the same standards of sonic performance and rugged reliability that makes Yamaha the first choice for live sound applications from schools to stadiums around the globe.
- · SPX Digital Effects EMX5 and EMX7 all feature a selection of 24 top-quality Yamaha SPX effects including reverb, echo, chorus, flanger, phaser, and even distortion that can add the final touch to your live presentation
- · Powerful & High Efficiency Class-D Amplifler Feature a built-in high-efficiency power amplifier of 2 x 710W and 2 x 630W of output power respectively. Despite their low power consumption, these amps are capble of very high volume output, yet still manage to remain surprisingly lightweight.
- . Portable Design EMX7 and EMX5 benefit from a robust and portable design with a rugged, impact-resistant, powdercoated metal chassis geared towards extended operation and road usage.
- Onboard Feedback Suppressor EMX7 and EMX5 come equipped with a Feedback Suppressor that utilizes a unique Yamaha digital technology to instantly eliminate annoying feedback with the single switch of a button, which utilizes a seven-band notch filter
- · 3-band Equalizer Control With individual knobs you can adjust the [HiGH], [MID], and [LOW] audio frequencies. You can operate instantly turning the control to amplify (boost) and attenuate (cut) the corresponding frequency band.
- . 1-knob COMP EMX7 and EMX5 are equipped with the popular 1-knob COMP function used in MGP and MG series models. By simply operating a single control, it is possible to get optimal compression for vocals and instruments. As the [COMP] control is turned to the right, the threshold, ratio, and output gain are adjusted simultaneously.
- · Internal Universal Power Supply- EMX7 and EMX5 have a highly-efficient internal universal power supply, then offer worry-free operation in any region around the globe - even in environments prone to potentially damaging power fluctuations. An internal power supply also simplifies rack mounting of the console for installed applications, eliminating the need for a bulky adapter or additional connections.

Drivecore Power Amplifiers

XLS Series with Integrated DriveCore™ Technology

The XLS Series of power amplifiers from Crown define the standard for live sound systems with unmatched performance, technology, and affordability. This highperformance line consists of four models each providing enormous power and flexibility thanks to the integrated DriveCore™ Technology, PureBand™ Crossover System and Peakx™ limiters. And weighing in at only 10 lbs or less, they provide the ultimate in lightweight portability.

Integrated DriveCore™ Technology

Class D amplifiers are notable for extraordinarily high efficiency and being well suited for driving difficult reactive loads such as subwoofers. However, their performance can suffer impaired performance on marginal and unstable AC line supplies. To overcome this obstacle, Crown engineers developed DriveCore™ Technology — a proprietary hybrid analog-digital integrated circuit (IC) developed with Texas Instruments that drives the "front end" of the Class D output stage.

Advanced Switched-Mode Power Supply

This advanced power supply is highly efficient and optimized for maximum power transfer from the AC line through the Class D output stage to the loudspeakers. A benefit to this is substantial weight reduction when compared to older 60Hz transformer-based power supplies.

PureBand™ Crossover System

The PureBand[™] Crossover System in the XLS Series adds an enormous amount of flexibility and performance to any system. With this system, the crossover frequency is completely variable allowing the choice of any crossover point between 50Hz and 3kHz on 1/12 octave centers.

Features & Specifications

- · XLS High Performance, Lightweight Class D amp weighs less than 11 lbs.
- Integrated PureBand™ Crossover System for better performance and control
- Peakx[™] Limiters provide maximum output while protecting your speakers
- . XLR, 14", RCA inputs provide outstanding flexibility
- · Efficient forced-air fans prevent excessive thermal buildup
- Electronically balanced XLR inputs; touchproof binding post and Speakon® outputs

Drivecore Power Amplifiers

The XLC Series power amplifiers are powerful, affordable options for both the cinema and install markets.

XLC Series with Integrated DriveCore™ Technology

The XLC Series of power amplifiers are available in two models, the XLC2500 and XLC2800 incorporate Crown's proprietary DriveCore™ Technology, which significantly reduces the amplifiers' size, while yielding much more energy efficient operation without sacrificing performance. Compact, powerful and cost-effective, the XLC Series provides ease of installation, outstanding sound quality and the unwavering reliability inherent in every Crown product. These amplifiers are powerful, affordable options for both the cinema and install markets.

Amplifier:

- · XLC amplifiers are compatible with Crown Monitor and Crossover System CXM2000 for monitor, fault detection and crossover functions
- · XLC amplifiers are compatible with Crown Monitor System DSi-8M for monitor function
- Capable of driving 2Ω . 4Ω and 8Ω outputs
- Support parallel connection of cinema surround speakers
- Indicators provide accurate diagnostics. Power, Signal, Clip and Fault
- Gain control on rear panel of amplifiers
- High performance, light weight DriveCoreTM based amplifier weighs less than 14lbs (6kgs)
- Input configuration: stereo and parallel

Feel & Hear the Power of DriveCore Technology!

Drivecore Power Amplifiers

Powerful. Reliable. Affordable.

The XLi Series of power amplifiers from Crown are suited for musicians, DJs, and entertainers as well as houses of worship, discos, and pubs.

XLI Series with Integrated DriveCore™ Technology

The XLI Series of power amplifiers from Crown® represents a new era in affordable, quality power amplification. All four models in the series are powerful, rugged and reliable. They are suited for musicians, DJs, and entertainers as well as houses of worship, discos, and pubs.

The four models in the series are the XLi800, XLi1500, XLi2500 and XLi3500. They are identical except for output power.

Features include RCA and XLR inputs, user selectable input sensitivity of 0.755V or 1.4V, Speakon® and binding post outputs, stereo/parallel/bindge-mono mode, power/fault/signal presence/clip indicators, forced-air cooling; and protection against shorts. no-load, on/off thumps and radio-frequency interference.

With over six decades of experience designing and building rock-solid products, Crown is the standard in amplifier technology, So check out the affordable Crown XLJ Series. They are a powerful argument for quality and value!

The new PX-Series Power Amplifiers are big powered loudspeaker systems with outstanding efficiency. They come with versatile connectivity, Yamaha's exclusive EEEngine technology & YS Processing. They are a perfect match for your Club Speakers because they are lightweight for easy transport & set-up.

Features & Specifications

- · Portable and very easy to handle, making transport and setup less of a chore
- Deliver solid, professional-quality power in a wide range of configurations designed to suit a variety of applications
- Compatible w/ any loudspeaker system, but if you're using our Club Series speakers they will provide optimum power and performance
- Use of an advanced switching power supply makes the amp very lightweight while maintaining superior audio quality.
- Equipped with Neutrik SpeakON* output jacks & ¼" output jacks for each channel, in addition to 5-way binding post
- Equipped w/ independent sweepable high-pass & low-pass filters on each channel so you can optimize output for subwoofer or full range systems.
- EEEngine (Energy Efficient Engine) technology makes more efficient use of AC power by reducing power consumption & heat generation w/o sacrificing output power or sound quality
- YS Processing (Yamaha Speaker Processing) achieves optimum matching with our popular Club Series loudspeaker systems. This special circuit optimizes output from the power amplifier to match the characteristics of the Club Series speaker systems, resulting in extra smooth highs and enhanced lows.

Ace Karaoke Corp Product Service, Exchange and Return Policy

We will exchange or refund your full purchase price on any unopened karaoke discs within 30 days of the date you received your package. Due to the nature of software sales, copyright laws, and the ability to copy discs; we are not able to provide a refund for any opened/unwrapped discs. Karaoke music is **NEVER** the original music and has been interpreted and recreated by each karaoke manufacturer in the manufacturer's own studios, therefore we cannot guarantee the quality of music, lyrical keys, or graphic components of the media. If you have a special requirement, please call our staff as we can offer recommendations on which discs and brands are better for your specific needs.

Returning Hardware and Accessories

- 1. Non-Defective Machines, Microphones and Other Hardware. We will gladly issue a refund within 30 days of your receipt less handling & shipping fee. Please contact our return department for RMA#. Customers will bear all shipping costs for the return of non-defective hardware. If you received free shipping on your order, you will be charged for shipping fee at \$7 + \$1 per pound. All non-defective returns of hardware will be charged 10% restocking fee per industry standard. If you received free shipping, we will assess the shipping charges additionally.
- 2. Exchange Defective Hardware. Please examine your package immediately upon receipt. Please send back the defective item within 30 days of receipt, if we determined the problem is due to manufacturer defect, Ace Karaoke will reimburse your shipping cost up to \$25. Please contact our Technical/Returns Department for a Return Authorization number (RA#) and for technical trouble shooting. We will reship you a new unit once we receive your merchandise.

Merchandise initially returned as defective, whose defect cannot be verified, is damaged due to human error, or has shown evidence of intentional destruction, will incur a minimum of 10% restocking charge as well as any related shipping costs.

- Exchange. All replacement systems are shipped via UPS Ground. However, customers have the option of paying for the difference of an expedited shipping method
- 4. No refunds/exchanges on customized items. (e.g. KOD, Unify System). Service Only.

Returning Hardware for an Upgrade

 Within 30 days of delivery if you are not satisfied with the machine and wish to upgrade, please contact our sales department. We will apply the full purchase price of your original purchase (excluding shipping and handling cost) toward the upgrade. The customer is responsible for all shipping costs relating to the upgrade. All returns MUST be in original condition, subject to approval.

Returning Software

- 1. Non-defective software. Due to copyright laws, we are unable to provide refunds for any opened/unwrapped software. Within 30 days of your package receiving date, we will accept returns of unopened software for store credit only. 10% handling fee will be assessed for the exchange. Please contact our return department for a return authorization number for the exchange. Customers requesting an exchange will bear all related shipping costs.
- Wrong Format. If you have questions regarding software quality or format, please contact us toll free at 1-888-893-7464 before placing your order. It is your responsibility to make sure you have the correct player for the disc you purchase.
- 3. Defective software. We will exchange your defective/opened item for another copy of the same item. Up to \$5.00 return shipping costs will be credited if the return is due to a defect in the software. We recommend that you send your return via an insured carrier. We are not responsible for lost returns.
- 4. Incorrect software. If you receive incorrect software due to our mistake, contact us immediately. Please return the item unopened, we will send you a replacement or issue a full refund. If you paid for Next Day Air, 2nd day or 3 Day select, Ace Karaoke will only refund up to \$10.00 of the shipping cost. If you inadvertently opened the incorrect software, please return the item and we will send you the correct software. We will credit up to \$5.00 for software returns if Ace Karaoke sends you a product in error or if it is defective. You will not be charged any additional shipping and handling fees for replacement shipments. Your replacement will be shipped using the same method you initially selected. Please contact us and our customer service department will assist you with your issue.
- Cracked damage CD Jewel Case. If a CD case arrives cracked or damage, please contact us. Our customer service department will be happy to mail you a replacement case.

Beyond the 30 day Coverage Period

If your purchase is beyond our 30 day coverage period for defective hardware, please contact the manufacturer. We can assist you in getting in contact with the manufacture for service work if needed. Ace Karaoke is not responsible for any fees related to shipping costs, repairs, exchanges or refunds.
